Office Dally Intelligences, Wednesday, May 9.

There is a fair degree of activity in mercantile circles, and the aspect of commercial affairs is satisfactory. In grain prices are firm, with a strong tendency. Flour also 1s firm. The produce market is not materially altered, though tolerably active. Groceries are characterized by considerable firmness, and a fairly active jobbing trade. The sugar market is much excited, and we advance our quotations materially. A feature of moderate steadiness and activity is noticeable throughout nearly all the ramifications of our city's trade.
